

Coventry Health Care Regional Headquarters Omaha, Nebraska

Developed by the Lund Co., this new regional headquarters building occupies a visible and prominent location along the West Dodge Expressway in Omaha. Built on a slope and providing building access from two sides, the structure is constructed of face brick and precast concrete comprised of two finish types and features approximately 400 parking spaces. The new facility centralizes Coventry's operations in the Midwest region and provides a more convenient location for the corporation's customers. Coventry occupies 57,000 s.f. of the building and the remaining 35,000 s.f. is available for leasing by other tenants.
